INTRODUCTION

- 1. The Department launched a regular quarterly survey of Manufacturing Production, Employment and Wages and Salaries effective from July-September 1983 up to 2007. The survey covered all manufacturing establishments and units that were registered as manufacturing type, (i) under the Companies Act 1912, (ii) those granted Development License for manufacturing under the Industrial Incentives Act 1978 and (iii) those engaged in manufacturing activities with a license issued by the Ministry of Labour, Commerce and Industries.
- 2. Information was collected by personal visit of the survey staff of the Department to the manufacturing enterprises, establishments and units that were operational in the various quarters starting July September 1983 and subsequent to the last quarter (October-December) of 2007. Manufacturing survey came to a stop from 2008 to 2013 due to staff constraint resulted in time series and trend break of information. In 2014 Manufacturing survey started again with the first report after the break in the manufacturing time series. *This is the Fourth Bulletin on Manufacturing Output, Employment and Wages and Salaries contains data for year 2016/17 published by the Department in December 2017.*
- 3. An establishment was treated as manufacturing if it was engaged in the transformation (mechanical or chemical) of substances into new products whether by machines or by hand in a factory or other business premises. An establishment/unit engaged in the assembly of component parts of manufactured products was treated as engaged in manufacturing except where it undertook construction activity.
- 4. The survey <u>did not cover</u> enterprises, establishments and units that were engaged in (a) repair and maintenance of vehicles, machinery and equipment; (b) canning, preserving and processing of fish and fisheries products; and (c) household type of activities related to making handicrafts and the like.
- 5. The questionnaire used for collecting the data from the said manufacturing enterprises and units is given as Appendix 1. Instructions for completing the questionnaire will be found in Appendix 2. However the definitions used for manufacturing businesses for the survey in question were:

Enterprises: A single business entity, Private, Government, Quasi-government and Cooperative operating in Tonga as a <u>legally constituted</u> body such as a company, partnership, co-operative and also sole ownership, engaged in manufacturing type of activities is treated as an enterprise. There are generally two types of enterprises viz.:

i."Single Establishment Enterprise" consisting of only one establishment and

ii. "Multiple Establishments Enterprise" consisting of more than one establishment with or without ancillary unit or one establishment plus one or more ancillary units.

Establishment: a separate operating unit (factory, store, workshop or other place, etc.) engaged in Tonga in one or predominantly one kind of economic activity at a single physical location.

6. Manufacturing establishments have been classified into Divisions according to the International Standard Industrial Classification (ISIC) Series M No. 4, Rev.3 for Major Divisions 15-37, Manufacturing Industries.
